PATENT APPLICATION
Docket No 3506 1002-003

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Steven B. Landau, Cheryl L. Miller and Matthew O. Fraser
Application No.: 10/817,332 Group: 1614
Filed: April 2, 2004 Examiner: Not Assigned
Confirmation No.: 1138
For: METHOD OF TREATING LOWER URINARY TRACT
DISORDERS

REQUEST FOR CORRECTED FILING RECEIPT
FOR UTILITY APPLICATION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

We hereby request that the following items of information be added to the Filing Receipt for the subject application received in this office on June 21, 2004.

10/817,332

-2-

In the section entitled, "Domestic Priority data as claimed by applicant," the filing date of Provisional Application No. 60/536,341 has been omitted in error. This section should read as follows:

Domestic Priority data as claimed by applicant

This appln claims benefit of 60/536,341 01/13/2004

and claims benefit of 60/496,502 08/20/2003

and claims benefit of 60/461,022 04/04/2003

A copy of the Filing Receipt with changes noted in manuscript is enclosed. In addition, in support of the requested correction, a copy of the first page of specification including the Related Applications paragraph (listing the application number and filing date of each priority application) is enclosed.

Pursuant to instructions in the February 29, 2000 O.G., we hereby request that the errors which are identified above be corrected in the captioned application to which this request for correction is directed. It is understood that the Patent Office will issue an automatically-generated, corrected Filing Receipt in this and, if applicable, any other affected applications.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.

UPDATED FILING RECEIPT

OC000000012995315

Date Mailed 06/18/2004

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Early Publication Request: No

Title

Method of treating lower urinary tract disorders

Preliminary Class

514

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)), the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)), the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Attorney's Docket No.: 3506.1002-003

METHOD OF TREATING LOWER URINARY TRACT DISORDERS

RELATED APPLICATIONS

- This application claims the benefit of U.S. Provisional Application No. 60/536,341, filed on January 13, 2004, U.S. Provisional Application No. 60/496,502 filed on August 20, 2003 and U.S. Provisional Application No. 60/461,022 filed on April 4, 2003. The entire teachings of the above applications are incorporated herein by reference.

BACKGROUND OF THE INVENTION

- 10 Lower urinary tract disorders affect the quality of life of millions of men and women in the United States every year. While the kidneys filter blood and produce urine, the lower urinary tract functions to store and periodically eliminate urine and includes all other parts of the urinary tract except the kidneys. Generally, the lower urinary tract includes the ureters, the urinary bladder, sphincter and the urethra.
- 15 Disorders of the lower urinary tract include overactive bladder, interstitial cystitis, prostatitis, prostatic dysplasia and benign prostatic hyperplasia.
- Overactive bladder is a treatable medical condition that is estimated to affect 17 to 20 million people in the United States. Symptoms of overactive bladder can include urinary frequency, urinary urgency, urinary urge incontinence (accidental loss of urine)
- 20 due to a sudden and unstoppable need to urinate, nocturia (the disturbance of nighttime sleep because of the need to urinate) or enuresis resulting from overactivity of the detrusor muscle (the smooth muscle of the bladder which contracts and causes it to empty).
